

Alternative Reporting Standard: Pink[®] Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 (“Exchange Act”) as well as Rule 144 of the Securities Act of 1933 (“Securities Act”), and state Blue Sky laws, require issuers to provide *current information* to the public markets. With a view to facilitating compliance with these laws, OTC Markets Group has created these Pink Basic Disclosure Guidelines (“Guidelines”).¹ These Guidelines set forth the disclosure obligations that make up the “Alternative Reporting Standard” for Pink companies. These Guidelines have been designed to encompass the “Catch All” information required in Rule 15c2-11,² however they have not been reviewed by the U.S. Securities and Exchange Commission or any state securities regulator. We use information provided by companies under these Guidelines to designate the appropriate tier in the Pink Market: Current Information or Limited Information.³

These Guidelines may be amended from time to time, in the sole and absolute discretion of OTC Markets Group, with or without notice. The information provided by companies under these Guidelines is subject to our [Privacy Policy](#).

NOTE 2 – Summary of Significant Accounting Policies

Method of Accounting

The Company's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Cash and Cash Equivalents

Cash and cash equivalents include time deposits, certificates of deposit, and all highly liquid debt instruments with original maturities of three months or less.

Accounts Receivable

The Company considers accounts receivable to be fully collectible. Accordingly, no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations when that determination is made.

Earnings (Loss) per Share

Earnings (loss) per share of common stock are computed in accordance with FASB ASC 260 "Earnings per Share". Basic earnings (loss) per share are computed by dividing income or loss available to common shareholders by the weighted-average number of common shares outstanding for each period. Diluted earnings per share are calculated by adjusting the weighted average number of shares outstanding assuming conversion of all potentially dilutive stock options, warrants and convertible securities, if dilutive. Common stock equivalents that are anti-dilutive are excluded from both diluted weighted average number of common shares outstanding and diluted earnings (loss) per share.

Fair Value of Financial Instruments

The estimated fair values for financial instruments are determined at discrete points in time based on relevant market information. These estimates involve uncertainties and cannot be determined with precision. The carrying amounts of accounts payable, accrued liabilities, and notes payable approximate fair value given their short-term nature or effective interest rates.

Inventories

Inventories consist of hemp coffee, CBD lotion, CBD Tinctures, Delta 8 Gummies and Delta 8 Tinctures. The shelf life of all inventories is one year. The company goes through all inventory on average every two months. With the cost associated with the products not changing the Company recognized all inventory and cost of goods sold at purchased cost.

Depreciation

Assets are depreciated over 5 years using straight-line depreciation. Assets consist of computer equipment. Depreciation started in 2018 when purchases were made.

NOTE 3 – Summary of Significant Accounting Policies - continued

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

The Company sales consist of natural hemp infused products, CBD infused products and private label coffees. Both hemp and CBD are purchased from outside vendors. The Company sells product to consumers, wholesalers as well as distributors. These purchases are done prior to orders so we have on hand.

The Company recognizes revenue in accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 606, Revenue from Contracts with Customers, which requires that five basic steps be followed to recognize revenue: (1) a legally enforceable contract that meets criterial standards as to composition and substance is identified; (2) performance obligations relating to provision of goods or services to the customer are identified; (3) the transaction price, with consideration given to any variable, noncash, or other relevant consideration, is determined; (4) the transaction price is allocated to the performance obligations; and (5) revenue is recognized when control of goods or services is transferred to the customer with consideration given, whether that control happens over time or not. Determination of criteria (3) and (4) are based on our management's judgments regarding the fixed nature of the selling prices of the products and services delivered and the collectability of those amounts.

Private Label Customers are wholesale distributors of the Company's product, under their own wholesale private label brand. The products are made to Company specifications and shipped directly to the wholesaler. The pricing is predicated upon a volume discount negotiated at the time of the placement of the orders. Product is produced and labeled in the Longwood

manufacturing facility and shipped directly to the Private Label customer who re-distributes to their retail and other customers. The products are fully paid when shipped.

Revenue from product sales is recognized when an order has been obtained, the price is fixed and determinable, the product is shipped, the title has transferred, and collectability is reasonably assured.

NOTE 5 – Going Concern

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China. In January 2020, the WHO declared the COVID-19 outbreak a “Public Health Emergency of International Concern.” This worldwide outbreak has resulted in the implementation of significant governmental measures, including lockdowns, closures, quarantines, and travel bans intended to control the spread of the virus. Companies are also taking precautions, such as requiring employees to work remotely, imposing travel restrictions, and temporarily closing businesses and facilities. These restrictions, and future prevention and mitigation measures, have had an adverse impact on global economic conditions and are likely to have an adverse impact on consumer confidence and spending, which could materially adversely affect the supply of, as well as the demand for, our products. Uncertainties regarding the economic impact of COVID-19 are likely to result in sustained market turmoil, which could also negatively impact our business, financial condition, and cash flow.

Our co-packer’s source raw materials used in our products from suppliers located in the United States. The impact of COVID-19 on these suppliers, or any of our other suppliers, distributors and resellers, or transportation or logistics providers, may negatively affect the price and availability of our ingredients and/or packaging materials and impact our supply chain. If the disruptions caused by COVID-19 continue for an extended period of time, our ability to meet the demands of our consumers may be materially impacted. To date, we have not experienced any reduction in the available supply of our products.

The extent of the effect of COVID-19 on our operational and financial performance will depend on future developments, including the duration, spread, and intensity of the outbreak, all of which are uncertain and difficult to predict considering the rapidly evolving landscape. As a result, it is not currently possible to ascertain the overall impact of COVID-19 on our business. However, if the pandemic continues for a prolonged period, it could have a material adverse effect on our business, results of operations, financial condition, and cash flow and adversely impact the quoted price of our Common Stock on the OTCQB.

Our financial statements appearing elsewhere in this prospectus have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company’s ability to continue as a going concern is contingent upon its ability to raise additional capital as required. As at December 31, 2018, our cash and cash equivalents (immediately marketable securities) was \$37,105. Unless we receive additional private financing or we receive a minimum of \$500,000 from the proceeds of this Offering, we will not be able to grow operations. We may have to raise additional interim capital from other private sources. There can be no assurance that such needed capital will be available or even if available that it will not be extremely dilutive to the Company’s shareholders.

Our auditors have indicated that these conditions raise substantial doubt about the Company’s ability to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

During the three months ended September 30, 2020, we reported net revenues of \$23,751, which is a decrease of \$52,135 or 68.7%, compared to the three months ended September 30, 2019. We attribute this decrease to the discontinuation of

unfavorable distributor agreements in an effort to sign larger, more favorable agreements. We attribute this decrease to the discontinuation of unfavorable distributor agreements in an effort to sign larger, more favorable agreements. Distribution of our products pursuant to these agreements was impacted by unforeseen delays, as well as the COVID-19 pandemic in the beginning of 2020. The COVID-19 pandemic not only impacted these new distribution agreements, slowed the purchases from our existing distributors. We expect that revenue will increase in the fourth quarter of fiscal year 2021 as the distribution related to many of these new agreements will come to fruition. Despite the impact from COVID-19 on our revenues in 2020, we have see revenues begin to increase in the fourth quarter of 2021 and expect a sharp increase in 2022.

NOTE 17 Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Principal Executive Officer and Principal Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report on Form 10-K. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Based on our evaluation, our Principal Executive Officer and Principal Financial Officer, after considering the existence of material weaknesses identified, determined that our internal control over financial reporting disclosure controls and procedures were not effective as of June 30, 2020.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

Our internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with the authorization of our management and directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management, including our Principal Executive Officer and Principal Financial Officer, assessed the effectiveness of our internal control over financial reporting as of June 30, 2020. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control over Financial Reporting - Guidance for Smaller Public Companies.

We identified the following deficiencies which together constitute a material weakness in our assessment of the effectiveness of internal control over financial reporting as of December 31, 2018:

- The Company has inadequate segregation of duties within its cash disbursement control design.
- During the quarter ending September 30, 2021, the Company internally performed all aspects of its financial reporting process, including, but not limited to the underlying accounting records and the recording of journal entries and for the preparation of financial statements. This process was deficient, because these duties were performed often times by the same people, and therefore a lack of review was created over the financial reporting process that might result in a failure to detect errors in spreadsheets, calculations, or assumptions used to compile the financial statements and related disclosures as filed with the SEC. These control deficiencies could result in a material misstatement to our interim or annual financial statements that would not be prevented or detected.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control system, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

The annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit us to provide only management's report in this annual report.

We regularly review our system of internal control over financial reporting to ensure we maintain an effective internal control environment. There were no changes in our internal controls over financial reporting during the quarter ended December 31, 2021 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting that occurred during the quarter ending September 30, 2022 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
